

Picture	Part #	MSRP	Brief Description	Extended Description
	DCF-100	\$1,495	Lifeline AED, 5-year battery, one set of pads	This package includes a Lifeline AED, 5-year battery pack, one set of defibrillation electrodes, 9-volt status indicator battery, quick-use card and user manual. No other accessories are required to have a fully functional lifesaving AED.
	DCF-110	\$1,545	Lifeline AED, 7-year battery, one set of pads	This package includes a Lifeline AED, 7-year battery pack, one set of defibrillation electrodes, 9-volt status indicator battery, quick-use card and user manual. No other accessories are required to have a fully functional lifesaving AED.
	DDP-100	\$38	Extra Defibrillation Pads Package (1 set)	This package contains one pair of defibrillation pads for use with the Lifeline AED. Pads should be stored connected to the AED. Extra pads can be stored in the available carrying case. Pad package has a two year shelf-life.
	DCF-200	\$149	Extra 5-year Battery Pack	This replacement battery pack has a standby life (installed in the unit) of 5 years, 125 defibrillation shocks, or 8 hours of continuous operating time including daily, weekly, monthly and quarterly self-tests.
	DCF-210	\$199	Extra 7-year Battery Pack	This replacement battery pack has a standby life (installed in the unit) of 7 years, 300 defibrillation shocks, or 16 hours of continuous operating time including daily, weekly, monthly and quarterly self-tests.
	DAC-410	\$8.99	9V Lithium Battery	Lithium 9-volt battery to power the Active Status Indicator. 9-volt is inserted into the battery pack. Battery life is approximately one year (installed in the AED).

	DDP-100TR	\$29	Training Pad Package (1 set) ** non-functional**	This package contains one pair of training pads to be used with a Standalone Trainer or Training Package. These pads do not contain a conductive gel and cannot be used for rescue purposes. These pads are only to be used for training purposes.
	DDP-200P	\$99	Pediatric Defibrillation Pad Package (1 set)	This package contains one pair of pediatric defibrillation pads for use with the Lifeline AED. Pads should be stored connected to the AED. Extra pads can be stored in the available carrying case. Pad package has a two year shelf-life. These pads enable the Lifeline AED to be used with children under the age of 8. They reduce the energy delivered by the AED to 50 Joules (from 150) and are slightly smaller than the DDP-100 pads to accommodate smaller victims
	DDC-6 DDC-50AE	\$79	Medium DDC, AE = Audio Enabled	The DDC-6 enables the Lifeline AED to record up to 6 hours of ECG data or, in the Audio Enabled version, up to 50 minutes of event audio and ECG data.
	DDC-12 DDC-100AE	\$99	Large DDC, AE = Audio Enabled	The DDC-12 enables the Lifeline AED to record up to 12 hours of ECG data or, in the Audio Enabled version, up to 1:40 of event audio and ECG data.
	DDC-CR1	\$75	DDC Card Reader	This card reader plugs into the USB port of any windows-based PC and accepts both DDC-6 and DDC-12 cards for downloading event data after the Lifeline AED has been used.
	DAC-100	\$99	Soft Carrying Case	This carrying case is designed to hold a Lifeline AED, extra sets of pads, an extra battery, and other accessories as needed. The case is made of ballistic nylon and has a carrying handle and a highly reflective safety strip.

Picture	Part #	MSRP	Brief Description	Extended Description
	DAC-210	\$299	Wall Mount Cabinet	This cabinet allows a Lifeline AED to be mounted on a wall to increase visibility and to protect the AED from theft or damage.
	DAC-220	\$349	Wall Mount Cabinet - w/Alarm	This cabinet allows a Lifeline AED to be mounted on a wall to increase visibility and to protect the AED from theft or damage. A loud alarm will sound whenever the cabinet is opened.
	DAC-300	\$99	DDP-100 to Medtronic Quick-Combo Adapter	This adapter allows the Lifeline defibrillation pads to be connected to Medtronic Physio-Control defibrillators that accept Quick-Combo adapters.
	DAC-310	\$99	DDP-100 to Zoll M-series Adapter	This adapter allows the Lifeline defibrillation pads to be connected to Zoll M-series defibrillators.
	DBP-RC2	\$149	Rechargeable Training Battery Pack (charger not included)	This is a replacement training battery pack for packs sold with the DCF-350T Standalone Trainer and the DCF-302T and DCF-303T training packages. The training battery is rechargeable.
	DTR-201	\$49	Training Battery Charger	This wall charger is for use in re-charging the DBP-RC2 rechargeable training battery.
	DTR-300	\$75	Training Software	This software card, along with training pads and a training battery, enables the Lifeline AED to be used for training purposes. The software card contains 12 American Heart Association approved training scenarios that can be selected manually from the AED or by using the remote control (not included).

Picture	Part #	MSRP	Brief Description	Extended Description
	DTR-400	\$49	Training Remote Control (includes batteries)	This remote control can be used to control up to four standalone trainers or Lifeline AEDs with training battery packs installed. The remote control can be used to adjust speaker volume, for scenario selection, and for manual simulation of ventricular fibrillation, asystole, patient motion, normal sinus rhythm or incorrect pad placement.
	DCF-302T	\$249	Training Package (DBP-RC2, DTR-201, DTR-300)	This training package consists of the rechargeable training battery, battery charger, and training software. Along with training pads (not included), it allows a Lifeline AED to be used for training to simulate rescue scenarios without delivering a defibrillation shock.
	DCF-303T	\$289	Training Package (DCF-302T, DTR-400 remote)	This training package consists of the rechargeable training battery, battery charger, and training software. Along with training pads (not included), it allows a Lifeline AED to be used for training to simulate rescue scenarios without delivering a defibrillation shock. A remote control is included to allow for easier management of the training session by an instructor.
	DCF-350T	\$399	Standalone Trainer AED Package: - DDU-100TR, - DBP-RC2, - DTR-201, - DTR-400, - DDP-100TR, - User manual - Quick-use card	The standalone trainer package includes a Trainer AED (note: cannot be used to deliver a defibrillation shock), training pads, rechargeable training battery, battery charger, and remote control for ease of use. The standalone trainer is pre-programmed with the training software so no additional training software card is required.
	DAC-101	\$99	Soft Carrying Case for Trainer AED	This carrying case is designed to hold a Lifeline Trainer AED, extra sets of pads, an extra battery, and other accessories as needed. The case is made of ballistic nylon and has a carrying handle and a highly reflective safety strip.

Picture	Part #	MSRP	Brief Description	Extended Description
	DAC-500	\$9	Quick Use Card	The quick-use card is a laminated card that fits into the pad slot on the back of the Lifeline AED and may be used as a quick reminder of the steps necessary to operate the device in an emergency.
	DAC-510	\$19	User's Manual	The user's manual covers the operation, maintenance, and technical specification guidelines for the Lifeline AED.
	DAC-520	\$14	"Unit Overview" Video	This 10-minute video provides an introduction to the operation of the Lifeline AED and its features. In addition, it covers the procedures for routine maintenance and upkeep of the device and its accessories.
	DAC-700 revA	\$0.10	Defibtech Lifeline Specification Sheet	The 2-page Defibtech Lifeline Specification Sheet provides technical specifications for the Lifeline AED, and related information such as battery pack, self-testing, defibrillation monitoring pads, environmental, patient analysis, event documentation, and physical documentation.
	DAC-720 rev2	\$0.25	Defibtech Sales Brochure	The 4-page color Defibtech Sales Brochure presents key features and benefits of the revolutionary Lifeline AED, Defibtech's quality-focused manufacturing process, and the importance of deploying AEDs to combat the serial killer known as Sudden Cardiac Arrest (SCA).
	DAC-730 Rev A	\$25	Defibtech Distributor Binder	The Defibtech Distributor Binder provides a wealth of information about Sudden Cardiac Arrest, Defibtech and our revolutionary AED. This is a valuable tool to utilize when presenting key information to customers and prospects, as well as for training your internal sales & customer service teams.
